REPORT OF THE DEPUTY MINISTER.

The Honourable

SIR GEORGE E. FOSTER, K.C.M.G., B.A., LL.D., D.C.L., M.P.,

Minister of Trade and Commerce,

Ottawa.

SIR,—I have the honour to submit herewith the Twenty-third Annual Report of the Department of Trade and Commerce of Canada for the fiscal year ended March 31, 1915.

Upon the outbreak of war in Europe in the beginning of August, 1914, the Department of Trade and Commerce was immediately confronted with an abnormal situation, and problems without precedent were presented which taxed the department to its utmost, in thus having to deal with pressing difficulties of the most extraordinary nature. Every avenue of Canadian commerce was affected, and within a few hours, the whole import and export trade of the Dominion was diverted from its ordinary peaceful channels into paths of perplexing complications.

It is a pleasure, however, to state that the work of the department was considerably lightened by the spirit of forbearance shown by Canadian business men, who readily and promptly resigned themselves to any difficulties or financial losses, however great, which might accrue to themselves, recognizing that loyal and steadfast support of the Government was the first duty of good citizenship.

It is cheering to note that after fifteen months of war, the depression expected by many has not materialized, but, on the contrary, commercial conditions have not only been well maintained but they now can be said to be in a sound and buoyant condition. In this connection it may be pointed out that the total foreign trade of Canada (excluding coin and bullion) during the twelve months ended October, 1915, amounted to only \$1,600,000 less than during the preceding corresponding period. This decrease was due to the great falling-off in imports (\$92,900,000) and foreign exports (\$5,000,000), which was not quite counterbalanced by the splendid expansion in the exports of Canadian produce, which amounted to \$96,300,000.

Statistics of trade during the first seven months of the fiscal year 1915-16 (see statement on page VIII) show that commercial conditions are still improving and seem to justify the most optimistic hopes for the future.

I have the honour to be, sir,

Your obedient servant,

F. C. T. O'HARA,

Deputy Minister.

EXPLANATORY NOTES, PART I.

The term "Entered for Consumption" is the technical term in use at the custom-house, and does not imply that the goods have been actually consumed in Canada, but that they have passed into the possession of the importer and that duty has been paid on that portion liable for duty.

The value given for goods imported is the fair market value thereof, when sold for home consumption, in the principal markets of the country whence and at the time when the same were exported directly to Canada.

The term "The Produce of Canada" includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials.

The term "Goods not the Produce of Canada or Foreign Articles" applies to the exports of foreign goods which had been previously imported.

The value of "Goods the Produce of Canada" is their value at the time of exportation at the ports of Canada whence shipped.

The value of "Goods not the Produce of Canada" is the actual cost of such goods.

The initials N.E.S. mean "not elsewhere specified."

" N.O.P. mean "not otherwise provided for."

The expression "Ton" means two thousand pounds, and "Cwt." one hundred pounds.

The expression "Standard hundred," when applied to deals, means 2,750 feet board measure.

The expression "Ton," applied to square timber, means 40 cubic feet.
